# Cookie Statement

Version: 3.0

Upload date: 30 September 2025

Introduction

SCOPE marketing technology (SMT) trading under the name SCOPE FinTech uses various types of cookies and similar technologies. By means of this cookie statement, SMT would like to inform you which cookies are placed by SMT and others via this website, which (personal) data is stored by the various cookies, how long the cookies are stored and which third parties have access to this data.

Who is responsible for processing your data?

SCOPE marketing technology BV, located at Spicalaan 1, 2132JG Hoofddorp, is responsible for the processing of data as described in this cookie statement. If you have any questions about the placement of cookies by SMT, please contact SMT via info@scope.nl.

The following websites and applications belong to SMT

- www.scope.nl
- www.cddondemand.com
- www.idvondemand.com
- www.regtechscope.com

What are cookies?

A cookie is a small text file that is stored on your computer during a visit to a website. If you visit the same website again later, your internet activities are recorded. For example, in which language you read a website, or which articles in web shops are viewed most by you. A cookie also ensures that you remain logged in while you use the site.

Other techniques similar to cookies

In addition to cookies, other similar technologies such as web beacons, pixels and JavaScripts may also store information about your visit to the website.

What types of cookies does SMT use?

We believe it is very important that you know which cookies and similar technologies our website uses and for what purposes they are used. We want to guarantee both your privacy and the user-friendliness of our website as much as possible. SMT uses the following cookies:

- Functional and technical cookies
- Analytical cookies
- Tracking cookies
- Social media plugins
- Third party cookies

Below you can read more about the cookies used by and via our website, who uses them, for how long and for what purposes.

Functional and technical cookies

Functional and technical cookies are necessary to ensure that the website is fully loaded, so that pages are complete and you do not miss any texts, videos or forms. These cookies offer you ease of use when visiting our website(s). These cookies ensure, among other things, that you see the website in the correct language, videos can be shown, links to other sites work and forms can be shown. These cookies do not infringe on your privacy and do not collect personal data. You cannot refuse these cookies.

Analytical cookies

These cookies measure the use of the website. This optimizes the website so that the user experience can be improved. For example, we keep track of how long you stay on a page. These cookies are processed anonymously and have no impact on your privacy. Nevertheless, we attach importance to informing you about this and we want to be transparent about this. These cookies are offered by SMT, but you can disable them if desired.

Tracking cookies

Tracking cookies are cookies to record your surfing behavior as a website visitor. We use these cookies to track which pages you visit, in order to build a profile of your online behavior. This profile is not linked to your name, address, email address, but it is to your IP address. The data is only used to tailor advertisements to your profile so that they are as relevant as possible for you. These cookies are not offered by default, you must actively give permission for this yourself.

Social media plugins

Social media plugins are part of tracking cookies. Social media plugins are cookies that are used to offer social media modules on the SMT website. Social media plugins enable you as a website visitor to easily share messages from our website with your network. The social media plugins used on the SMT website come from Twitter and LinkedIn. These international social media companies use this to collect data to enrich their user profiles about you. This gives them insight into your visit to our website and adds this information to the information that these companies already have about you, for example because you have an account there. These cookies are not offered by default, you must actively give permission for this yourself.

Third party cookies

Third parties also place cookies on the SMT websites. These can be media agencies, advertising networks, advertisers and social media parties. Advertising networks and media agencies are companies that act as intermediaries between SMT and advertisers. For the cookies that these third parties place and the possible data that they collect with them, we refer to the statements that these parties provide on their own website. Please note that these statements can change regularly. SMT has no influence on this. These cookies are not offered by default, you must actively give permission for this yourself.

Google Analytics

SMT uses Google Analytics – a web analysis service provided by Google Inc. (hereinafter: "Google") – to track how users use the Website and how effective SMT's Adwords advertisements are on Google search result pages. Google Analytics uses "cookies" (i.e. text files placed on your computer) to analyze how users use the Website. The information generated by the cookies about your use of the Website (including your IP address) is transferred to and stored by Google on servers in the United States. Read Google's privacy policy for more information. You will also find Google Analytics' privacy policy here. Google uses this information to track how the Website is used, to provide SMT with reports about the Website and to provide its advertisers with information about the effectiveness of their campaigns. Google may provide this information to third parties if Google is legally required to do so, or to the extent that these third parties process the information on Google's behalf. SMT has no influence on this. SMT has not authorized Google to use Analytics information obtained through SMT for other Google services.

You can refuse the use of cookies by selecting the appropriate settings in your browser. However, SMT would like to point out that in that case you may not be able to use all the options of the Website. If you do not want your website visit to be measured by Google Analytics, you can easily download a tool that blocks Google Analytics.

By using the Website, you consent to the processing of data by Google in the manner and for the purposes set out above.

Withdraw consent/adjust cookie settings

For example, if you do not want websites to place cookies on your computer, you can adjust your cookie settings via your browser settings. There you can also delete cookies that have already been placed by websites. Please note that you must adjust the settings for each browser, computer and other mobile device that you use separately.

It differs per browser how you can adjust the settings. Via the links below you will come directly to the manual of the different browsers to change your cookie settings:

- Chrome
- Firefox
- Microsoft Edge
- Safari

Final provision

This cookie statement may change when the rules regarding cookies change. Therefore, please consult our website from time to time for our current cookie statement.
